Re:	School Climate Survey: Grades 4, 6 & 7 (March 27 - April 28, 2017)
Reference #:	SCS: 2017-18: 001 C:173

Schools are required to conduct anonymous school climate survey of their students every two years and to share the results with their safe schools teams as outlined in <u>PPM 145</u>, <u>Progressive Discipline</u> and <u>Promoting Positive Student Behaviour</u>.

The Survey is intended to identify students' perceptions about school climate, bullying and well-being in order to determine those elements that contribute to a safe, caring and inclusive school environment.

We strongly encourage you to help **all Grades 4, 6 & 7** students have an opportunity to be heard. The estimated time for survey completion is approximately 20 minutes per student. Information about the school climate survey will be communicated through **Synervoice centrally** to parents/guardians on **27th March 2017**.

The School Climate Survey will be available online for students to complete commencing Monday, 27th March until the end of the school day on Friday, 28th April. The survey can be accessed from the board website: <u>http://www.ycdsb.ca/surveys.htm</u> or directly at <u>https://www.research.net/r/SC5QB7X</u>

We appreciate your time and co-operation with this initiative and hope that the results, supporting resources and system trends to be released in the fall will enable you to continue to build and sustain a safe, caring and inclusive learning environment.

The following resources (accessed by clicking on the hyperlinks in <u>blue</u> below) are provided to assist you in preparing to administer the survey:
